- Future:
 - Desired cadence for meetings
 - Desired cadence for Exercises

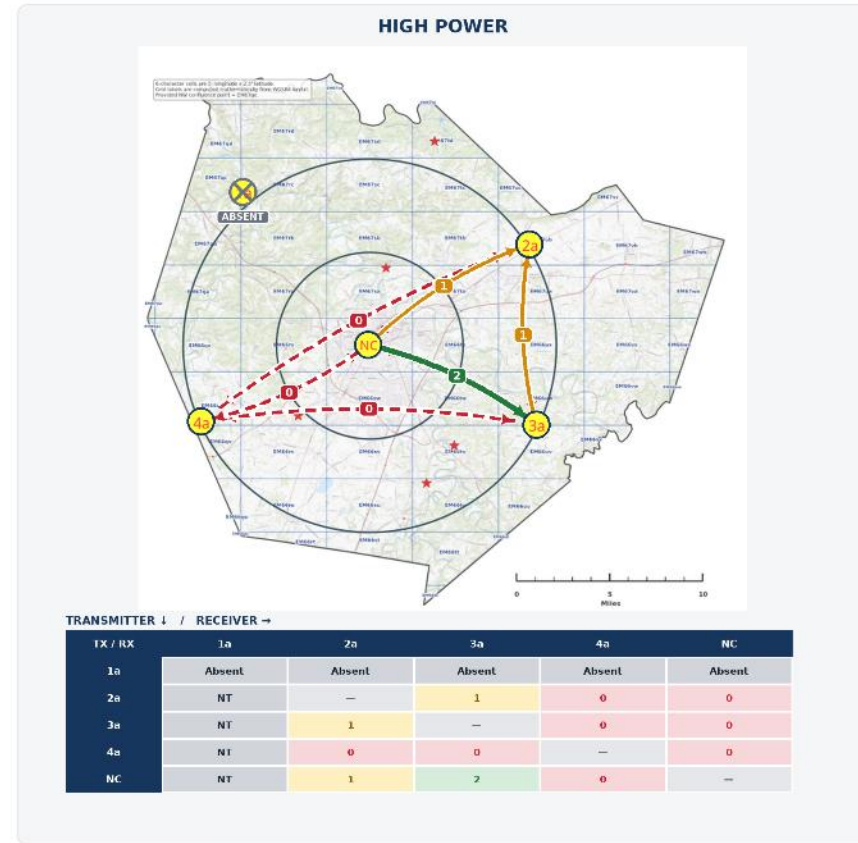

Field Exercise 20260829

Warren County ARES Field Exercise

Station locations taken from the supplied annotated exercise map

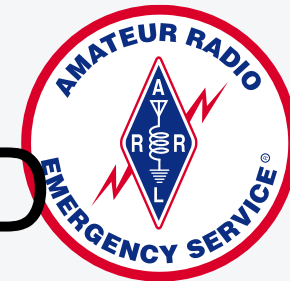

PATH RATING ● 0 - Not heard ● 1 - Weak ● 2 - Good ● NT - Not tested

Observed power effect: NC → 3a improved from 1 to 2.

Rows transmit - Columns receive

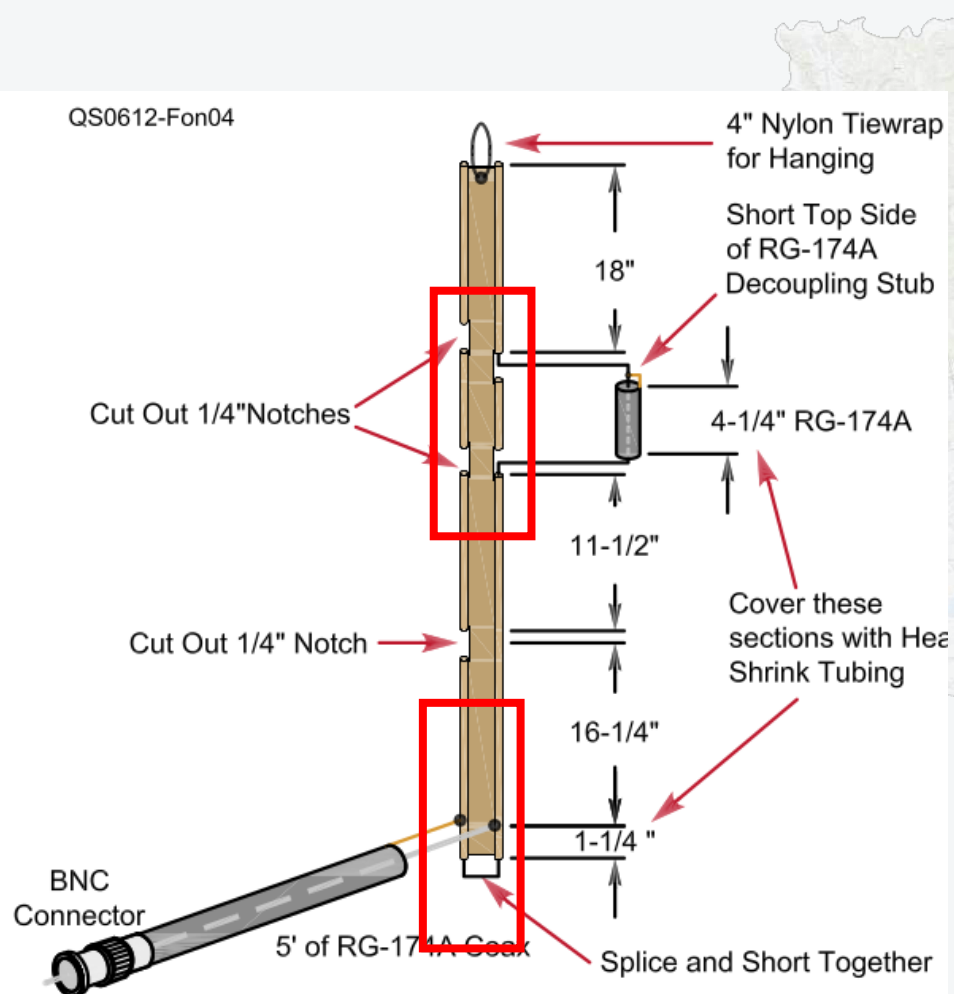

No wonder we couldn't hear KD9GRD

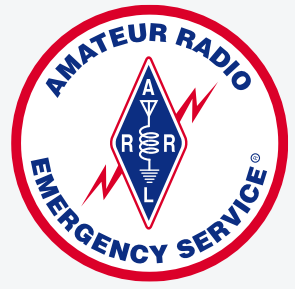

This is good information! We need to know what obstacles to plan for and what capabilities we actually have.

Dual Band Roll Up Antenna

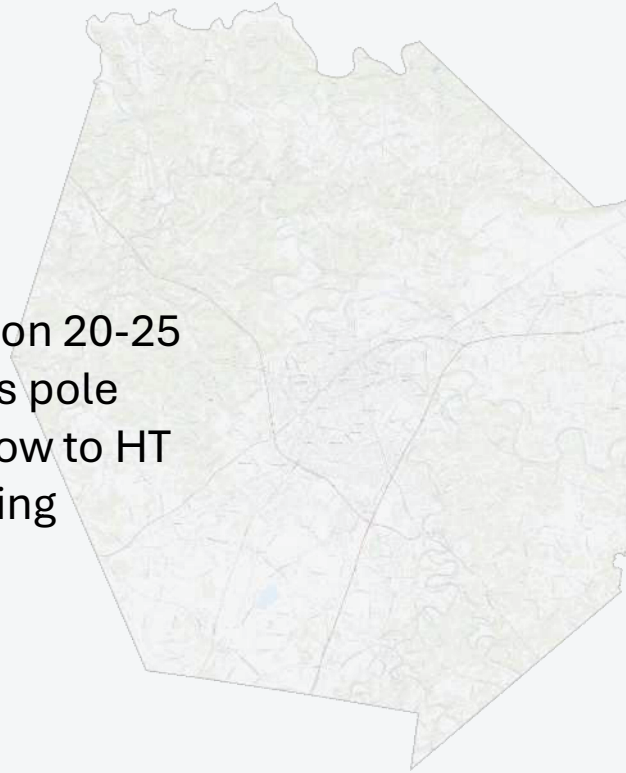

- Rubber Duckies often have negative dBi
- Ed Fong WB6IQN Design
- Replace 4-1/4" of RG-174A with 5" of RG8X with 5" cut in ladder line to match
- A good chunk of shrink wrap (red box) over the Coax going to radio will secure it to the ladder line and join the stub and ladder line together

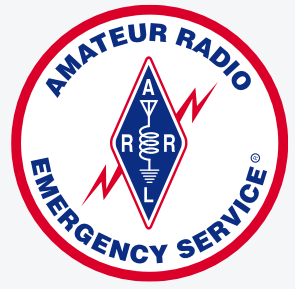

Mobile Setup Roll Up Antenna

NCS for Field Exercise

- Dual Band roll up antenna on 20-25 foot of extendable painter's pole
- Passed coax through window to HT
- Parked on top floor of parking structure in Downtown BG

Warren County EM Discussions

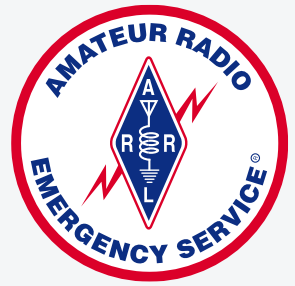

KY4JPS introduced me to the Director of Public Safety Bill Rector and Deputy Director of WCEM Kevin Bailey. On 8/14, Pat and myself met with Kevin (Bill not able to attend due to family emergency).

I introduced our group, its mission and priorities, and we discussed how ARES can help with their goals. It was a high-level meeting, and I expect it to be the first of many.

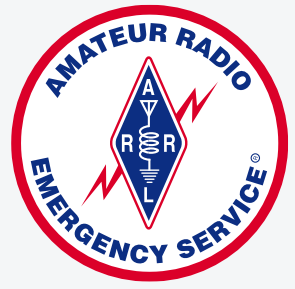

He did mention that there will be a statewide, all first responders SET, in the spring of 2027, something they do every 5 years.

He specifically mentioned Winlink and other digital modes, so please start learning about those.

ARRL Simulated Emergency Test (SET)

- 10/3-10/4
- Will be a surprise time and event
- Working with SEC to verify state participation plans
- Do we want to participate, even if it means making our own?
